

Welcome to St Paul's College

Empowering Every Student to Thrive

Why Choose St Paul's College?

At St Paul's College, we believe in promoting Catholic values and religious education, in a safe and nurturing environment.

Our caring and supportive teaching approach is tailored to meet the unique needs of each student, and our high staff-to-student ratio ensures that every child receives personalised attention and support.

We have a comprehensive allied health team dedicated to supporting your child's diverse needs, promoting overall well-being.

Every classroom has a full-time Learning Support Officer, ensuring immediate assistance when students need extra support. To enrich your child's experience, we offer a variety of extracurricular activities such as sailing, bike riding, bowling, and swimming.

We encourage the use of AAC devices for students with speech challenges, fostering communication and confidence.

St Paul's College

Curriculum highlights include:

- Individual learning plans for students to achieve personal and academic goals
- Victorian Pathway Certificate (VPC) in Senior School
- Student leadership programs, include Compass and Student Representative Council
- STEM Program to foster science, technology, engineering, and mathematics skills
- Phonics Program: Enhancing literacy through structured phonics instruction
- Living and Social Skills: Focused on preparing students for life beyond school
- ABLES Assessment framework and Victorian Curriculum F-10 including Towards Foundation Levels A-D.

Together, we empower our students to thrive and succeed.
