

Ready to Launch House

VMCH

Ready to move out of home?

Our Short Term Respite provides a safe, supportive, and engaging environment for children and young people aged 8 years and above. It gives participants a chance to build confidence, try new experiences, and enjoy time away from home with the support they need.

Would you like to learn about and practice the things you may need to live out of home for the first time?

Ready to Launch is a program designed to teach young people about how to live independently, by staying in our Ready to Launch house. Ready to Launch house provides practical, real-life, away from home experiences, in a safe, accessible home with one to one or one to two supports.

Who

Children and adults with NDIS funding from 8 years old

Where

Wangaratta

When

Short-Term Respite for children and Ready to Launch for adults is available throughout the year.

Our program will help you to work towards living as independently as possible and achieve your life goals.
